

## **WESTHOUSE - WE make talent work**

Westhouse is an international staffing and recruitment agency, specialized in the selection, placement and management of experts in ICT, Engineering, Finance and Sales & Marketing sectors and offers extensive IT consulting services.

With 14 locations worldwide, Westhouse is one of the leading HR providers on the international scene.

### **ABOUT THE ROLE**

We are looking for a student or a graduated in matters related to IT, mathematical or economical subjects with a good command of English, autonomy in organizing his/her tasks and cataloging of key information received from the rest of the team. We are seeking for someone with a strong motivation and the will to make the difference.

The intern will manage follow-up activities concerning the implementation of a new ERP system worldwide, Oracle, and its continuous upgrades. This position is integrated in EMEA (Europe, Middle-East and Africa) team, so it offers the possibility to have international contacts.

Specifically, the intern will work within the IT Team supporting Finance at EMEA level and his/her main tasks are going to be:

- data extract;
- production of reports (both for Finance people as well as for IT Decision Makers),
- resolution of open issues and monitoring of a good resolution of the Help Desk ticket;
- organization of conference calls in order to discuss on periodical reviews or solve problems;
- system access creation and maintenance and much more.

### **LOCATION**

Milan – Italy (6 months)

### **ABOUT THE CLIENT**

Our client is Arrow Electronics Italia, the Italian company belonging to Arrow Electronics Group, world leader in distribution of electronic components. It counts more than 17.000 people who serves over 100.000 customers in 56 different countries.

Covering the 113° position on Fortune 500 ranking, Arrow Electronics works in a special world that still doesn't exist: the world of Five Year Out. Five Year Out is a community of engineers, designers, builders and visionaries who moves between what is possible and what is achievable. These people create our future and they work today on what will be on the market in five years. Are you one of them?
